REVISION TO NOTICE TO NAVIGATION NOTICE 21-32

CHANNEL MAINTENANCE DREDGING

TENTATIVE SCHEDULE, OHIO RIVER

Reference Notice to Navigation Interests 21-32 dated 7 October 2021. The channel maintenance dredging schedule for the Huntington District has been adjusted and is shown below.

Notice is given that on or about 18 October 2021, Amherst Madison, contractor for the US Army Corps of Engineers, will commence channel maintenance dredging on the Ohio River at mile 363.1, at the entrance to Shawnee State Park Marina. The nearest known downstream municipal water intake is at Manchester, OH, Ohio River, Mile 404.5. Approximately 2,000 cubic yards of material will be dredged at this location. Successive dredge sites, mile points, dates, quantities, and nearest downstream municipal intakes are listed below. Disposal operations will take place at the permitted sites for each location.

The contractor's floating plant consists of the M/V KEITH A BLOUNT, the M/V BUS BROWN, two barge mounted cranes, and four material barges. The M/V KEITH A BLOUNT and the M/V BUS BROWN will be monitoring marine channel 13. Dredging will be performed from 6:00 AM through 3:00 PM, 7 days per week. A government dredge inspector will be in attendance at each site. Navigators are requested to be alert to the location of the dredge and its disposal operations. It is essential that navigators await the passing signal from the dredge prior to proceeding with caution. During non-working hours, all equipment will be moored outside the navigation channel, marked and lighted according to regulations.

<u>Site</u>	<u>Approximate Commencement Date</u>	<u>Estimated Quantity (CY)</u>	<u>Nearest Downstream Municipal Intake</u>
Lower Approach Greenup Locks Ohio River Mile 341.0	Oct 19 - 28	30,000	Portsmouth, OH Ohio River Mile 350.8
